Task
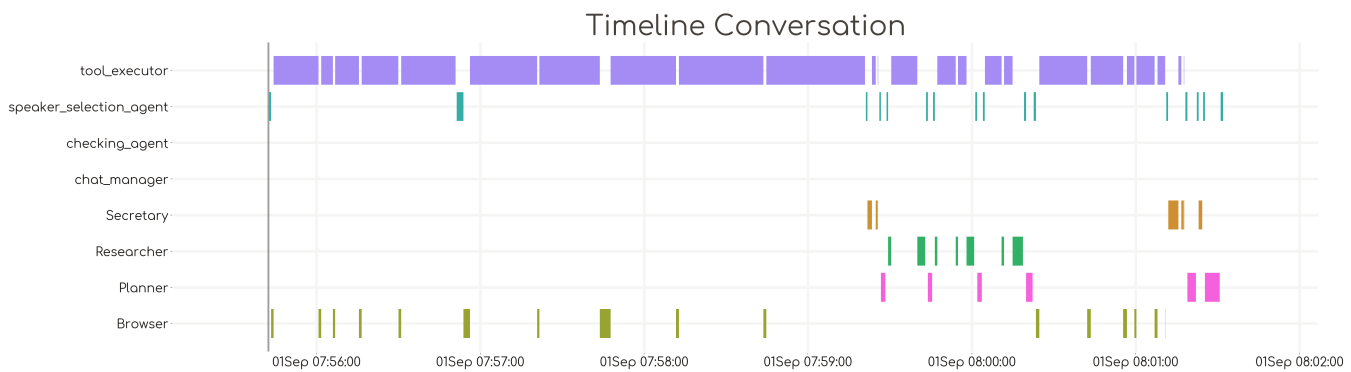

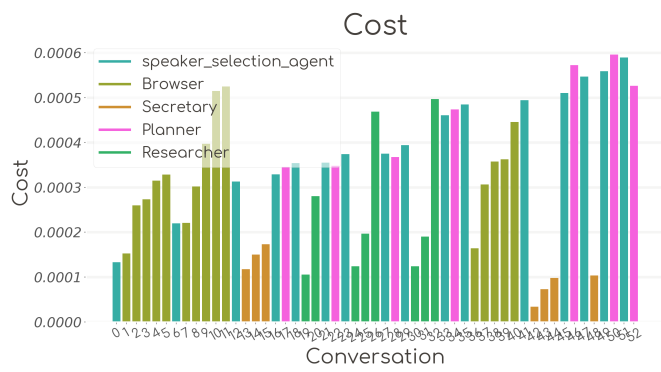

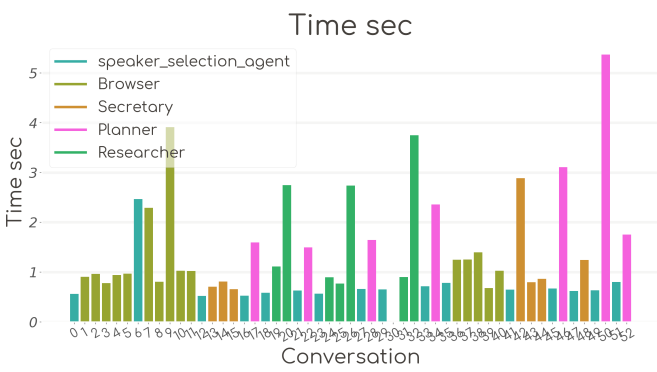

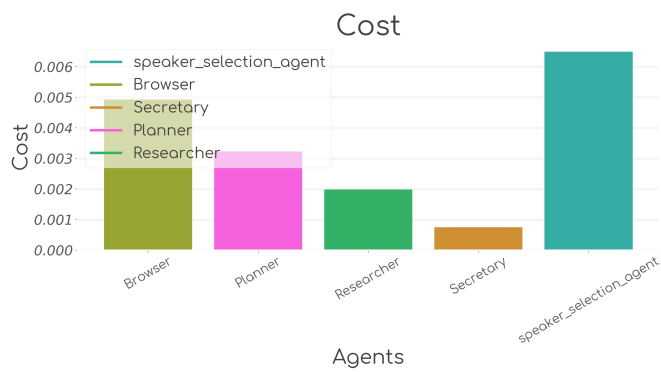

Login to gmail.com and send sample email to pawel.masior@geekforce.io.

Milestones

Milestone: Login to gmail.com and send sample email to pawel.masior@geekforce.io.

The current method of sending emails through Twilio's SendGrid service is encountering HTTP errors. Suggested alternative approaches include switching to SMS, using a different email service (like Gmail's SMTP), or manually sending the email from a Gmail account. Next steps involve confirming whether to send an SMS, switch to another email service, or proceed with manual email sending.
